Folic Acid.....

Make It A Habit

I know folic acid is important for my good health.

To get more folic acid every day, I will

- ☐ Take a multivitamin with 400 mcg folic acid.
- ☐ Read labels.
- ☐ Eat breakfast cereals with 400 mcg of folic acid per serving.
- ☐ Increase consumption of foods fortified with folic acid in addition to eating food folate from a varied diet.
- ☐ Choose fruit or vegetable juice instead of coffee, tea or soda.

Simple Rule:
All women
need folic acid.

Why Every Woman Needs FOLIC ACID

What is folic acid?

- Folic acid is a B vitamin that is often lacking in women's diets.
- Folic acid and folate are different terms for the same B vitamin.

Why do you need folic acid?

- Folic acid can help prevent 50 to 70% of neural tube defects, a type of birth defect (NTDs).
- NTDs occur very early in pregnancy and affect development of a baby's brain and spine.
- Folic acid is necessary for proper cell growth and development of the baby.

When do you need to take folic acid?

- To prevent NTDs, a woman must take folic acid daily before she gets pregnant and continue taking it through the first three months of pregnancy.
- Any woman able to get pregnant should take folic acid.

How much folic acid do you need?

- You need 400 micrograms (mcg) every day.

How can you get enough folic acid?

- The easiest way is to take a multivitamin with 400 mcg of folic acid
- You can also choose foods that are high in folic acid, but most people have a hard time eating enough foods each day to get the recommended amount of folic acid.

CHOOSE FOODS RICH IN FOLIC ACID

- ◆ Breakfast cereals – Select those with at least 25% of the recommended daily amount of folic acid. (Some cereals are fortified at the 100% level.)
- ◆ Fortified/enriched grain products – including breads, pasta, grits, cereals, and rice
- ◆ Dried beans and peas - canned or dry
- ◆ Juices – orange, pineapple, tomato
- ◆ Fruits – oranges, cantaloupe, honeydew melon, avocado
- ◆ Vegetables – green leafy vegetables such as spinach, turnip greens, and collard greens; broccoli; Brussels sprouts; lima beans; Romaine lettuce; and asparagus
- ◆ Nuts and peanut butter
- ◆ Liver
